

Subject: Application for Senior Project Manager (Requisition ID: 19048)

Dear Roger,

With over 25 years of experience leading complex, global programs from concept to completion, I am writing to express my keen interest in the Senior Project Leader PMO position. My background in driving large-scale post-merger IT integrations, establishing global PMOs, and rolling out enterprise-wide digital platforms aligns directly with the core responsibilities of this role.

The job description emphasizes the need for a leader proficient in both **Agile and Waterfall methodologies**, a duality that has been central to my career. As a

Product Owner, I have guided sprint teams using Agile SCRUM to deliver customer-centric solutions like a global supplier portal for British American Tobacco. Concurrently, my experience establishing formal PMO structures and managing multi-million franc post-merger integrations at

Dufry AG demonstrates my expertise in disciplined, Waterfall-based execution, where I successfully delivered **CHF 120Mn in IT synergy** in the first year.

My extensive experience as PMO in stakeholder management within a broad, international matrix is proven by my leadership during two major acquisitions, where I managed consulting partners and internal teams to align on strategy, budget, and risk mitigation. While my background is rooted in technology and pharmaceuticals, my tenure at

Novartis provided me with significant exposure to operating within a highly regulated environment, and I am confident in my ability to quickly master the specific compliance standards of the medical device industry.

My track record of translating business needs into viable solutions, managing substantial budgets, and fostering collaboration across diverse teams has prepared me to meet the challenges of this role and contribute to Straumann Group's success. I am eager to discuss how my strategic mindset and relentless focus on delivering results can benefit your team.

Thank you for your time and consideration.

Sincerely,

Rajeev Sharma +41 79 928 86 70
