Hiring Manager

Viking, Basel

Subject: Senior Manager, IT Portfolio & Strategy

Hi,

I am writing to express my strong interest in the Senior Manager, IT Portfolio & Strategy role. My experience leading IT transformation for the global travel retailer Dufry AG (Avolta) and directly advising MSC Cruises on PMO and ERP programs aligns perfectly with the challenges and opportunities in this position. I am driven by a passion for the travel industry and a commitment to leveraging technology to deliver tangible business value.

At Dufry, I was at the forefront of two major post-merger IT integrations, where I defined the merger strategy and led the PMO. My leadership in these complex transformations delivered concrete results, including

CHF 120 million in IT synergy realization and over **CHF 70 million in operational cost reductions** in the first year alone. This role required me to manage the global IT budget, develop technology roadmaps for application consolidation, and establish robust IT governance and financial controls—all skills central to your requirements.

More recently, I applied this expertise directly to the cruise sector with

MSC Cruises, where I developed an efficient PMO setup and managed their SAP S/4 Hana ERP rollout. This direct industry experience has given me a unique perspective on the operational needs and strategic priorities of a leading cruise line.

My goal is to apply my strategic, financial, and execution capabilities to an industry I am passionate about. I am confident that my experience driving efficiency and growth in both the travel retail and cruise sectors can bring significant value to your team.

I am eager to discuss how my background can help you achieve your strategic objectives.

Sincerely,

Rajeev Sharma
